

New for 2025: Co+llaborator spaces on the show floor!

In the Collaborator space you can add a little flair to your tabletop display, with twice the size of the standard table space.

Use your Collaborator space:

- As additional display space for your company's product
- As a small classroom to conduct product trainings or other educational activities
- For more involved demonstrations
- Meet with buyers and prospective buyers in a lounge or meeting room space

Get creative! If you have other ideas you'd like to discuss, [please reach out](#), we are happy to explore options.

A Collaborator space comes with:

- 10'x20' space on the show floor
- 8' tall pipe and drape backdrop on three sides
- Two (2) tables, 8'x30" and four (4) chairs

You are welcome to bring any tradeshow fixtures or other furnishings you wish. Additional pipe and drape along with a limited selection of furnishings are available for rent through our service provider. Please [contact us here](#) if you would like more information about furniture rentals. For Co+nvergence, reservations must be made and confirmed by Friday, August 1.
